

Cargo on Deck Loading

NEW OPTION OF C.A.M.E.L.

Effepi Advisory/Consultancy Services

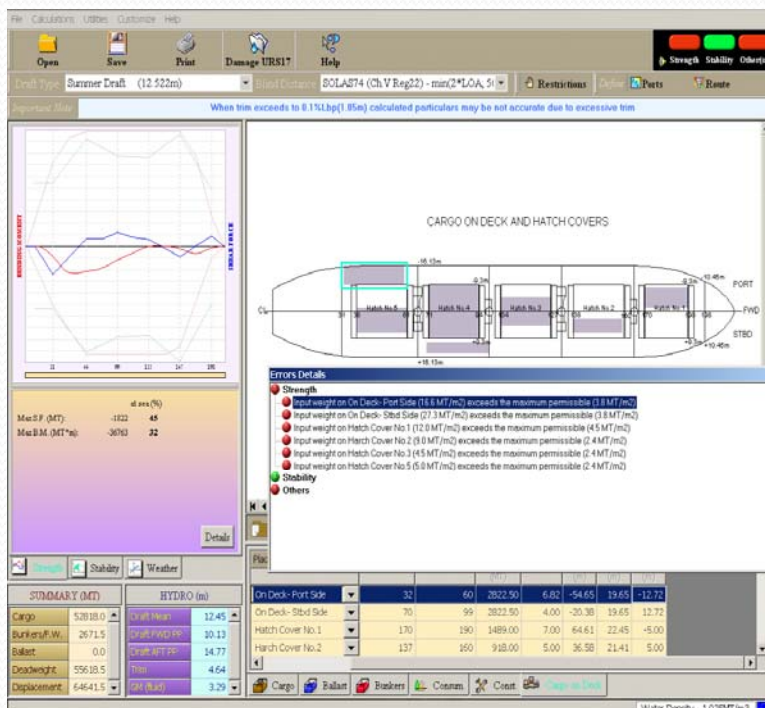

Effepi provides advice on ship-specific by receiving account many similar cases in the past and prepares the necessary plans for the smooth and fast approval by the classification society

TECHNICAL - ADVISORY

New option of C.A.M.E.L. Loading program has been development in order to help the Master and vessel's operators to load the vessel with uniform cargo on deck and on hatch covers.

To that purpose actual size of deck and hatch covers have been designed (Deck view) and with easy way the Master can load on deck entering the Weight, position and dimension of each cargo.

C.A.M.E.L. automatically illustrates with color each cargo on deck and check the local strength(t/m²) of the specific position on deck and hatch covers.
